**AGLIO** - reliable, long-term,  
local partner, peculiar  
**“Business-Nanny”** for  
start-up companies

Our specialists and partners will solve any  
of your problems

European businesses in the UAE are actively starting and developing. At the same time, all companies in the UAE are required to keep accounting records and submit financial statements to governmental authorities, as well as calculate and pay taxes.

Having more than 20 years of experience in various businesses and understanding the importance of timely and complete information about the financial condition of the company, I have created AGLIO - a partner company for entrepreneurs.

AGLIO will save businesses from accounting routine and ensure compliance with all legal requirements in taxation.

### **Business starts**

You are entering the UAE market and need business planning, company registration and obtaining a resident visa.

**Ensure the sustainable development of your business without being distracted by the accounting and tax routine. You increase income, we reduce costs.**

# **EMPLOYED ACCOUNTANT - NOT ALWAYS RATIONAL**

At the stage when the business is just developing, the cost of organizing an accountant workplace, investing in software, paying for a work permit, insurance and a visa for a specialist carry an additional administrative burden.

With AGLIO you can be sure that the service will always be provided - without sick leave and holidays, but with high quality.

Customers of our clients promptly receive invoices and notifications of the due date of payment (control of receivables).

Tax authorities promptly receive the necessary reports, our clients can be sure that the tax legislation is observed. In case of accrual of fines due to errors in reporting, AGLIO pays them on its own.

Employees of our clients promptly receive payroll, payslips, and clarifications on charges, if necessary.

The client is provided with financial statements and explanations to it within the terms established by local legislation, as well as for any other period (month, quarter) agreed with the client.
